Thank you for buying this JVC LCD panel television. To make sure you understand how to use your new TV, please read this manual thoroughly before you begin.

 Follow this manual regarding setup! Connect only to a 110-240 V, 50/60Hz AC outlet. Make enough room for inserting and removing the power plug! Place the TV as close to the outlet as possible! The main power supply 	 children to hang from the TV. There is a risk that the TV will fall and cause injuries. Make use of the hole on the back of the stand to prevent the TV from falling easily. (P. 4) <	es, cloths, paper, etc. on the TV noisture! shock, never allow liquids to enter the cabinet openings! ric shock.
for this TV is controlled by inserting or removing the power plug.	If the TV is damaged or behaving strangely, stop using it at once! → Unplug the power cord and	 Hold the TV so as not to scratch the screen! Do not touch the screen when carrying the TV. Do not carry the TV on your own!
 Never cut or damage the power cord! If the AC plug is not the right shape, or the power cord is not long enough, use an appropriate plug adapter or extension cable. (Consult your retailer.) Upplus the power cord 	contact your retailer.	 In order to prevent accidents, ensure that the TV is carried by two or more people. When attaching the TV to the wall, use the optional JVC wall mounting unit! Consult a qualified technician. See the included manual on mounting procedures. JVC assumes no responsibility for damage due to improper mounting. Never listen to headphones at high volume!
 Unplug the power cord when going out! The power buttons on the remote control and the TV unit cannot completely turn off the TV. (Make appropriate arrangements for bedridden people.) 	 If a television is not positioned in a sufficiently stable location, it can be potentially hazardous due to falling. Many injuries, particularly to children, can be avoided by taking simple precautions such as: Using cabinets or stands recommended by the manufacturer of the television. Only using furniture that can safely support the television. Ensuring the television is not overhanging the edge of the supporting furniture. Not placing the television on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television to a suitable support. Not standing the televisions on cloth or other materials placed between the television and supporting furniture. Educating children about the dangers of climbing on furniture to reach the television or 	 It may damage your hearing. Never dismantle the rear panel! It may cause an electric shock. Never obstruct the ventilation holes! It may cause overheating or a fire. Handle LCD panel with care! Use a soft, dry cloth when cleaning. Never try repair the TV yourself! If the problem cannot be solved in "Troubleshooting" (P. 15), unplug the power cord and contact your
	its controls.	retailer.

• For more details on installation, usage and safety ➡ Consult your retailer.

Remote control buttons and functions

Set up and connections

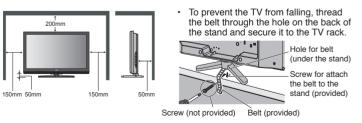

Care when setting

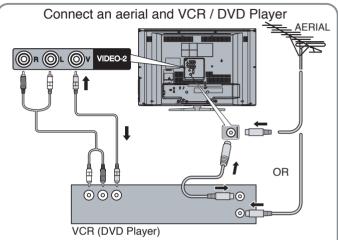

Power requirements

- · Connect the power cord only to a 110-240V, 50/60Hz AC outlet.
- When attaching the TV to the wall, use the optional JVC wall mounting unit
- · Consult a qualified technician.
- · JVC assumes no responsibility for damage due to improper mounting.
- LT-32Z49 : 200 mm x 200 mm mount which conforms to VESA standards.
- LT-42Z49 : 400 mm x 200 mm mount which conforms to VESA standards.

Installation requirements

· To avoid overheating, ensure the unit has ample room.

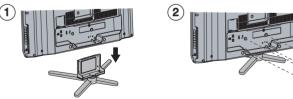

• After all the connections have been made, insert the plug into an AC outlet.

Stand Assembly

- Insert the stand into the panel at the position where the screw holes are, and fasten the screws.

 If you have any problem with assembly, please contact a retailer or a dealership.
 Note: 4 screws included.

2. Enter

Pixel : Adjusts the horizontal feature of screen.

Configuring your remote control

You can configure your TV's remote control to operate your other devices.

Configure your remote control.

- 1. Turn on the device manually.
- 2. Switch the remote control mode that matches your device. Refer to the table on the right to select an appropriate mode.

- The indicator lights for 3 seconds each time the remote control is operated.
- 3. Find the remote control code for your device according to its brand from the "Remote control codes" manual.
- 4. Set the remote control code.

button

5. Point the remote control at your device, press and confirm that your device is turned off. If your device does not respond, try entering another available code.

number

 If your device does not respond, try all the available codes for the device's brand

Note

• If none of the code works, or the brand is not listed, refer to "Using the search code function" (P. 14).

MODE	Applicable devices
т٧	This TV only
STB	Cable Set Top Box, Cable/PVR Combination, Satellite Set Top Box, SAT/PVR Combination
BD/DVD	DVD, Blu-Ray DVD, HD DVD, DVD-R, Home Theater in Box, TV/DVD Combination
AUDIO	Amplifier, Receiver, Home Theater in Box

Using the search code function

This function searches through the codes one by one, beginning from the first code in the list

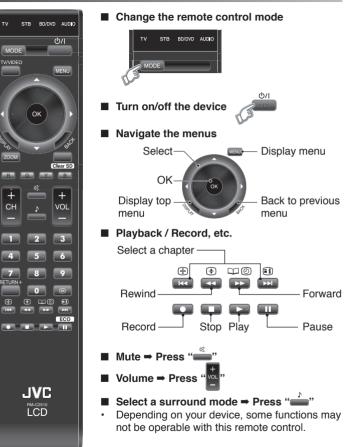

- 1. Turn on the device manually.
- 2. Switch the remote control mode that matches your device. Press MODE to select the mode.
- 3. Activate the search code function.

Hold down and and a until the mode indicator blinks.

- 4. Point the remote control at your device and press If there is no response, try the next code by pressing > and again. Repeat the process until your device turns press off.
- 5. Press sto register the code. The code is now set. Confirm that the mode indicator goes out.
- If your TV's remote control still does not work even after using the search code function, use your device's own remote control. The TV's remote control is not guaranteed to work with all models, brands or operations.

Troubleshooting

If a problem occurs when you are using the TV, check the below troubleshooting guide before calling for repair.

Severe noise or snow	Page	Poor picture quality	Page
Check the aerial cable and TV connections .	P. 4	Unnatural colour >> Adjust "Colour" and "Backlight"	P. 7
Check the direction of the aerial.	P. 4	Check "Colour System". If "Auto" is selected	P. 8
Check the aerial or its cable damaged or not.		select the specific colour system manually.	
Patterns, stripes or noise		Noise >> Set to the following functions.	_
Interference caused by devices such as an amplifier, personal computer, or a hair drier, Move it away from TV.		Picture Mode : Standard DigiPure : On	P. 7 P. 8
Ghosting (Doubling of images)		Dull picture >> Set to the following functions.	D 7
Interference occurs caused by signal reflection from mountains or building. Try to adjust the aerial's direction or use another antenna.		Picture Mode : Bright DigiPure : On	P. 7 P. 8
Cannot turn it on		Poor sound	
Ensure the power cord is connected to the AC outlet correctly.		Adjust the "Bass" and "Treble".	P. 9
Cannot operate the remote control.		If receiving a poor signal in "Stereo/I-II" switch to "Mono".	P. 9 P. 6
The batteries may be exhausted. Replace with new batteries.		Adjust the channel reception using "Manual". For HDMI signal, wrong screen size in 480p (525p).	P. 0
Ensure that you are operation the remote control at less than 7 meters		Switch "Size" in "HDMI Setting" to "1" or "2".	P. 12
from the front of your TV.		For HDMI signal, green and distorted screen	
Remote control stops working		Wait a little for the signal to stabilize when switching the signal format	
Unplug TV, several minutes later plug it in again.		for an "HDMI" device.	
Side control buttons do not work		For HDMI signal, No picture / No sound	
Switch "Child Lock" to "Off".	P. 11	Use the cable marked with HDMI logo.	P. 5
Aspect ratio changed unintentionally		Check if the device is compliant with HDMI.	P. 12
Press " 2000 " button to return to your settings.	P. 8	Switch "Audio" in "HDMI Setting" to "Digital" or "Auto" for HDMI devices, or "Analogue" or "Auto" for DVI devices.	
PC screen alignment is off		Some functions do not work.	
Adjust the "PC Position" in "PC Setting" of Set Up menu.	P. 12	It is not a malfunction. Some functions (dark background) in the menu	
Blue screen appears on the screen		do not work depending on the situation.	
Switch "Blue Back" to "Off".	P. 11	Black or white dots appear on the screen.	
Strange picture when using an external device If the top of the image is distorted, check the video signal quality itself. If movement appears unnatural when receiving a signal from a DVD		LCD panels use fine dots ("pixels") to display images. While more than 99.99% of these pixels function properly, a very small number of pixels may not light, or may light all the time. It is not a malfunction.	
player, etc. with 625p (progressive-scanning), change the output setting		No picture, No sound	
of the external device to 625i (interlace-scanning)		Some input do not output from OUTPUT terminal.	

Technical information

Language group for Teletext

Group	Languages
Group-1	Turkish, Hungarian, English, German, French, Italian, Spanish, Portuguese, Greek, Swedish, Finnish
Group-2	Polish, Serbian, Croatian, Slovenian, Czech, Slovak, Rumanian, Hungarian, German, French, Italian, Swedish, Finnish
Group-3	Russian, Bulgarian, Lettish, Lithuanian, Estonian, Ukrainian, Serbian, Croatian, Slovenian, Czech, Slovak, English, German
Group-4	Arabic, Czech, Slovak, Hungarian, English, German, French, Italian, Spanish, Portuguese, Swedish, Finnish
Group-5	English, French, Turkish, Farsi
Group-6	Lettish, Lithuanian, Estonian, Ukrainian, Czech, Slovak, English, German

 If the characters are unreadable.
 Select different Teletext language group. (P. 6)

PC Signals that can be displayed

 If the signal doesn't appear, check that the vertical frequency on the PC is set to "60Hz".

Resolution	640 x 480(VGA) / 1024 x 768(XGA)		
Vertical frequency (Hz)	60.0		

What is "Clear SD"

LCD picture is unstable due to a large number of signal noise. Such noise appears extensively especially when an LCD displays SD signals. Clear SD mode resolves disadvantage for better picture quality.

No use "Clear SD"

Use "Clear SD"

Connect "DVI" devices

Connect a "DVI" device to "HDMI" using "DVI-HDMI" conversion cable. Connect analogue sound output of the DVI device to L and R terminals in HDMI-1.

- Set "Audio" in "HDMI Setting" to "Analogue" or "Auto" (P. 12)
- HDMI-2 and HDMI-3 input does not support analogue sound.

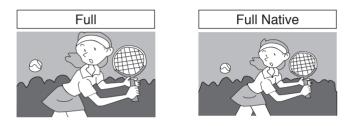

Sound and Colour system in your country or region

Technical information (continued)

What is "Full Native"?

 With the full HD LCD display and "Full Native", you can enjoy full native HD resolution of 1920 x 1080. It exposes flaws in the video that were hidden when viewing on "Full".

- * The illustrations are emphasised to make clear differences between "Full" and "Full Native".
- Dark bar or noise may appear at the edges of the screen when viewing in "Full native" for some videos. This is resulted from the signal itself, not due to TV malfunction.

What is "Eco Sensor"?

You can adjust this TV so that the screen automatically adjusts to the optimum contrast of light and dark according to the brightness of your room.

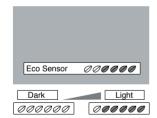

This function reduces eyestrain and the power consumption of this TV.

- Set "Eco Sensor" (P. 11)
- Make sure not to block the Eco Sensor on front of the TV (P. 4)
- To fully reduce eyestrain and the power consumption of this TV. Set to the following functions.

Eco Sensor : On or Demo (P. 11)

Smart Picture : On (P. 8)

Using "Demo" in "Eco Sensor", you can display the effect of the "Eco Sensor" on the screen.

CH/CC List

To use the Insert function (P. 6), find the "CH/CC" number corresponding to the TV's channel number from this table. US: The US channel numbers are the channel numbers used in the United States, Philippines, etc.

CCIR: The CCIR channel numbers are the channel numbers used in the Middle East. Southeast Asia. etc.

OIRT: The OIRT channel numbers are the channel numbers used in Eastern Europe, Russia, Vietnam, etc. AUSTRALIA: The AUSTRALIA channel numbers are the channel numbers used in Australia, etc.
